Hall & Oats, She's gone

I don't think they are high purely on consolation...

Thanks John Moe at Monkey Disaster for ruining this song—and possibly every song by H & O—for me, forever.

John is the new host of one of my media staples, Weekend America. It's a weekly two-hour radio program that is crammed with absorbing stories, listener clips, and good music. Weekend America podcasts are available FREE at iTunes, so there is really no excuse not to listen...except if you're too peeved about the whole Hall & Oats thing.

He's also a McSweeney's luminary. See his collection of stories: Pop Songs Correspondences.
