

Impossibly Happy Music

I spent time on iTunes last night making this iMix for Carrie at Barefoot Gypsy Girl.

Carrie, During your blog-break I hope you enjoy some time with your family and friends. Please refrain from listening to "Death Cab for Cutie" during your respite and listen to the skillfully crafted iMix below instead. Come back when you're ready...will all be waiting.

Here is your iMix: Impossibly Happy Music

Note: Does not include "Walking on sunshine" or "All I want to do is have some fun," ironically, these songs throw me into a deep 2 1/2 minute depression. It is more of a Pete Townsend, Feist, Rickie Lee Jones kind of listen...
