

Lisa Mertins' Story today in The Register

Everyone, this is Lisa Mertins....Lisa, this is everyone. Lisa was the illustrator for "Alive in Wonderland" and, more importantly, is a good friend.

She wrote this feature in today's Morning Read-Help! My Husband Is Despondent Over Lost Love.

It is an amusing tale of being left on the outside of your husband's obsession. I slightly have this kind of thing going on with UFC, but Larry has yet to shed a tear over Chuck "THE ICEMAN" Liddell.

Please take a look and leave her a comment if you like it. She is getting a few people nipping at her heels– not sure why some have to be so negative, geesh! (Expression Geesh is blantant rip-off from Nik. It's a good one.)

This is an illustration by Lisa of this Favre fellow.
